Professional Summary

Full Stack Developer with 1+ year of professional experience in designing and developing scalable web applications. Currently working as Junior Developer (Backend) at **MCABEE DIGITAL** (September 2025 – Present). Experienced in React.js, Next.js, Node.js, NestJS, Express.js, JavaScript, TypeScript, PostgreSQL, MongoDB, Prisma ORM, REST APIs, authentication, Git workflows, and AI-assisted software development using ChatGPT, Claude, Cursor, GitHub Copilot, and OpenCode.

Professional Experience

Junior Developer (Backend)

MCABEE DIGITAL | September 2025 – Present

- Develop scalable backend services using Node.js, NestJS, Express.js, and TypeScript.
- Design, develop, and maintain RESTful APIs for enterprise applications.
- Build secure authentication and authorization using JWT and role-based access control.
- Design and optimize PostgreSQL and MongoDB databases using Prisma ORM.
- Integrate frontend applications built with React.js and Next.js with backend APIs.
- Debug, optimize, and maintain production applications for performance and scalability.
- Collaborate with cross-functional teams using Git, GitHub, Agile, and code reviews.
- Use ChatGPT, Claude, Cursor, GitHub Copilot, and OpenCode to accelerate development, debugging, testing, documentation, and refactoring.

MERN Stack Intern

Plugins Learn Ltd. | July 2024 – January 2025

Developed full-stack MERN applications, responsive React interfaces, backend APIs with Node.js/Express, MongoDB integration, authentication, and CRUD operations.

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, Bootstrap

Backend: Node.js, NestJS, Express.js, REST APIs, JWT Authentication

Database: PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, VS Code, Postman

AI Tools: ChatGPT, Claude, Cursor, GitHub Copilot, OpenCode

Projects

POS Management System – Inventory, billing, GST invoice generation, barcode support, purchase & sales management, customer management, reporting, and analytics dashboard.

MediQX Healthcare Platform – Healthcare platform with patient, doctor, staff, appointment, authentication, role management, dashboards, and reporting.

Doctor Booking System – Appointment scheduling, doctor availability, patient registration, notifications, and secure authentication.

E-Commerce Platform – Product catalog, categories, shopping cart, wishlist, payment integration, order management, and admin dashboard.

Foodio – Online food ordering application built with the MERN stack.

Metallica – Fashion e-commerce website with responsive UI and backend integration.

Netflix Clone – Movie browsing interface with responsive design.

MERN Authentication – Secure login, registration, JWT authentication, and protected routes.

Todo List – Task management application with CRUD operations.

Weather Application – Real-time weather information using external APIs.

Education

Professional Course – MERN Stack Development (Plugins Learn)

Higher Secondary (Computer Science) – SKVVHSS

SSLC – SKVVHSS

Soft Skills

Problem Solving • Team Collaboration • Communication • Agile Development • Analytical Thinking • Continuous Learning

Languages

English • Malayalam • Tamil • Hindi
